UNIVERSAL DOORSPRING

EcoSavers® Universal Door spring

Another clever product from EcoSavers, the universal door spring.

This is an easy to install universal door spring suitable for almost every door and window hinge system.

Basically, 2 kind of systems are on the market, this product can be used for both systems. The screw accessory guarantees you can use the spring for almost every door and window.

The universal door spring from EcoSavers makes energy saving simple and affordable.

This door spring automatically closes doors and windows, to prevent the warmth (in winter) or cold (in summer) leaving the room.

Suitable for every hinge system For doors and windows Accessory included
